SO THE PUBLIC MAY KNOW

- We wish to clarify that the issuance of DENR Administrative Order (DAO) 2008-20 requiring Mineral Ore Export Permit (MOEP) for the overseas transport and shipment of mineral ore is lawful and in accordance with the mandate of the Department of Environment and Natural Resources (DENR).
- It is intended basically to address the rampant smuggling and misdeclaration of mineral ore and the non-payment of necessary taxes which has caused the loss of billions of pesos that can actually be used for our children's education and social upliftment.
- In support of local autonomy and as partners in environmental protection and natural resources management, the DENR agreed to delegate the issuance of MOEP to the Provincial Governors. This is consistent with Section 17 of the Local Government Code (RA 7160) which states that the DENR devolved functions shall be "pursuant to national policies and subject to supervision, control and review of the DENR."
- In fact, despite Section 138 of RA 7160, which limits the permitting power of the Governor only to "sand, gravel and other quarry resources," the DENR also agreed, in support of local autonomy, to administratively devolve to the Provincial Government the "enforcement of the small-scale mining law, subject to the policies, standards and guidelines of the DENR." (DENR Administrative Order 30, series of 1992).
- Thus, the issuance of DAO 2008-20 which aims to encourage responsible mining, payment of correct taxes and deter illegal export of mineral ore, is consistent with the Mining Law (RA 7942) and the Local Government Code (RA 7160).
- Given the responsibility of the DENR, we have always considered the local government units (LGUs) as important partners in environmental protection and natural resources management.
- We, therefore, urge the concerned Governors to support our efforts toward responsible mining and environmental protection.

"God endowed the Philippines with so much natural wealth which we must collectively manage and protect, not only for us but also for the coming generations."

Panlilio: Lapid return 'too much'

By Philip C. Brown

MANILA, Nov. 21 — The return of the Lapid family to the Philippines has been met with a mix of relief and skepticism. While some welcome the family's return, others believe it is premature, given the ongoing political and economic challenges the country faces. The Lapid family, including Senator Juan Lapid III, has been in exile since the ouster of President Joseph Estrada in 2001. The family's return is seen by some as a sign of reconciliation, but others worry it might lead to a resurgence of political instability.

Court junks ecogroup bid to stop dump construction in San Mateo

By David J. Thompson

San Mateo Superior Court Judge Robert J. Hinkle has rejected a bid by the Peninsula Environmental Council to enjoin the construction of a new 100-unit apartment complex in San Mateo. However, the court found that the project complied with all applicable regulations and that the council's arguments were not sufficient to warrant an injunction. The court's decision allows the construction to proceed as planned.
